

## **Welcome to Attendees of Anti-Ahmadinejad Rally**

As a New Yorker it is my pleasure to welcome Iranians and other friends from around the globe who are coming to support freedom and democracy and to vocally protest the presence of the arch-terrorist Mahmoud Ahmadinejad in our city and country as he attends the UN General Assembly on September 14th and 15th.

We, the people of New York and the United States, share a special bond with the Iranian people: we are both the victims of terrorism! The Iranian regime supports al-Qaeda, and permits its members, including Abu Musab Zarqawi, to travel freely in and out of Iran. The Iranian government supports the killing of American troops in Iraq; it is behind much of the terrorist bombings in that country.

This same regime is responsible for the terrorist bombings of the US Marines barracks in Beirut in 1983, the terrorist bombings of the Jewish Community Building in Buenos Aires, Argentina in 1992 and 1994, and the Khobar Towers bombing in Saudi Arabia in 1996. It was Ahmadinejad's Qods Force that organized these and many more acts of global terrorism.

At home, Ahmadinejad's corrupt regime is the world's most repressive.

Please join us at Dag Hammarskjöld Plaza next to the United Nations Building (47th Street and 1st Avenue) at 11:00 AM on September 14th, to protest the presence of this arch-terrorist in our midst!
